

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

February 4, 2003 LB 238, 333

body. LB 238 is a bill that makes it clear that kit cars and other homemade cars can be licensed and registered in Nebraska. This legislation is necessary because there seems to be some confusion about this matter. In some parts of Nebraska, local officials do not recognize kit cars, while in other parts of Nebraska they do. This bill will end the confusion. I offered this legislation last year, and...in the Transportation and Telecommunications Committee, and it was advanced to the floor with amendments, but time ran out before we could address this bill. This year's version incorporates the committee's amendments from last year. As you can see from the committee statement, this bill is supported by the Department of Motor Vehicles. And this bill is an income producer. Exactly how much money we will raise we do not know. But I'm told that these cars are becoming increasingly popular. This concludes my opening statement. I would be happy to address any questions that you may have.

SENATOR SCHIMEK: Thank you, Senator Price. Is there discussion on the bill? Seeing none, Senator Price, would you wish to close? Senator Price waives closing. The question is the advancement of LB 238 to E & R Initial. All in favor vote aye; all opposed vote nay. Record, Mr. Clerk.

CLERK: 30 ayes, 0 nays, Madam President, on the advancement of LB 238.

SENATOR SCHIMEK: The bill does advance. Next item on the agenda.

CLERK: Madam President, LB 333 is a bill by Senator Burling. (Read title.) The bill was introduced on January 14, referred to the Transportation and Telecommunications Committee, advanced to General File. I do have committee amendments, Madam President.

SENATOR SCHIMEK: Thank you. Senator Burling, you're recognized to open on your bill.

SENATOR BURLING: Thank you, Madam President. Thank you, members of the body. LB 333 is designed to create a titling
